

LCV220 and VS217 Variable-Speed Fan Drives and Controller

Economically-priced, reliable systems that provide variable-speed fan control specifically tailored to your engine requirements.

- **Maximum uptime**
 - Maintenance-free
- **Meet European noise directive**
 - 70-percent fan speed override
- **Less noise**
 - Fan only engages at the amount needed for proper cooling
- **Maximum fuel efficiency and available engine horsepower**
 - J1939-compatible and variable-speed operation
- **Design flexibility**
 - Engineered to turn a large variety of plastic, metal or composite fans

(Optional)

Di+™ Controller

Horton variable-speed drives are engineered for use with Horton or competitive fans and can be combined with an optional J-1939-compatible Di+ Controller for customized precision-cooling control.

ENGINEERED FOR:

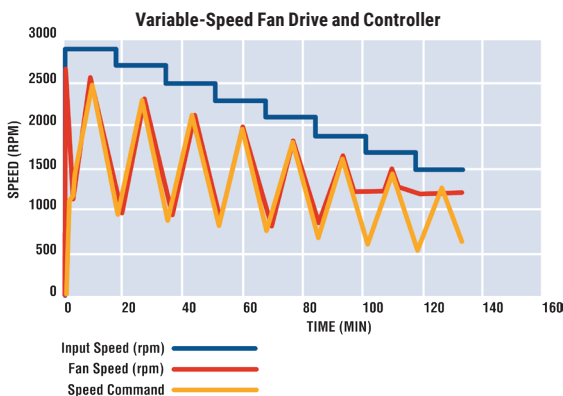

Additional Product Benefits

- Customized algorithms for specific requirements
- J-1939 compatible
- 12V/24V
- 70-percent fan speed override to meet the European noise directive
- 105C temperature rating
- Maintenance-free
- Compatible with a wide range of fan sizes
- More economical and safer than hydraulic systems

Choose the Leader

With more than 60 years of industry experience, commitment to service, reliability and innovation, Horton is a premium worldwide provider of airflow management solutions for engines. Horton's comprehensive research and development processes are driven by a dedication to exceed the cooling demands of reduced-emission engines today and in the future. We're proving our performance every day. In the toughest operating climate. Yours.

Committed to Your Ideal Airflow Solution

Horton® is the premium provider of engine cooling solutions worldwide. Our culture of innovation delivers high-performance products that last and services that help you meet your commitments. Trust Horton to help your products last longer, run quieter and consume less fuel.
